

Equipment Waiver

For use should a player provide their own equipment

The Ontario Football Alliance and its members strive to provide the safest playing environment possible.

This letter confirms that _____ and/or guardian that any equipment worn or used which is not provided by an Ontario Football Alliance (OFA) member will be properly maintained and used as per the manufacturers specifications and that the league and its member teams are not liable for the misuse or failure of the replaced equipment. (Example of but not all inclusive of replaced equipment is shoulder pads, helmets, and visors).

It is recommended that helmet visors shall be clear in colour and have an accepted safety rating (CSA). Tinted visors are only allowed at the discretion of the member club when that member club receives written permission from a physician stating the foresaid player requires tinting for medical reasons. Mirrored visors are disallowed.

It is the responsibility of the player to ensure the equipment used meets requirements of the Ontario Football Alliance, its membership and the Canadian Amateur Rule Book.

For safety reasons the OFA strongly recommends that the only equipment used be provided by the team/league. In the event a player chooses to use equipment not provided by the team/league the team/league and/or the OFA will not be liable for any injury that is cause by or attributed to the misuse, failure or maintenance of equipment.
